In-paddock demonstrations are an important part of our event with more and more manufacturers and dealers recognising the benefit of being able to show their equipment in a working environment.

This activity also attracts significant excellent media coverage prior to and during the event

We encourage exhibitors to consider expanding their presence at the Field Days by participating in these demonstrations.

A full page in our Official Program is dedicated to the 3 days of demonstrations, listing schedules, equipment and participants.

Exhibitors accepted for In-paddock Demonstrations are automatically entered for the Best Paddock Demonstration Award
