

Australian Machine of the Year			
Site Name	Number	Machine Name	Description
AusCut	361	Rollmax	
Delmade	345	Delmade Offset Disc	Heavy Duty Offset Disc for Tillage
Haymate	1055	Haymate SR5400	Haymate SR5400 is an innovative time saving easy to use piece of machinery designed to hold up to 4 round or 5 square bales of hay or silage. Can be towed behind heavy duty 4x4. Easy single person operation. Full remote control operation of both engine and machine all designed for ease of use from the comfort of your vehicle. Stand alone engine with fully integrated hydraulics. The modular design of the Haymate enables easy upgrade or multiple applications. Designed and Manufactured in Keith SA
Healy Group	1412	Sheep Rest	Sheep handling device that has a low capital cost and simple to use, allowing one person to work on sheep almost anywhere safely and comfortably.

Imported Machine of the Year			
Site Name	Number	Machine Name	Description
Avant Equipment	1259	Avant Tecno	Avant Mini Loader
Clark Equipment	746	ORSI Pro 2500 Flail Bower/Mulcher	Professional series mulcher. 251cm working width. Front or rear mounted. Hammer Flails. Hyd offset. HP Rated 110hp-200hp. Hardox Body.
Delecca's	743	Bobcat TL43.80 Telehandler	Operators in agriculture love the best-in-class boom speeds and high flow. Features a premium workspace with a large roomy cab with high visibility to aid efficient and safe work
Falcon UAV	AP.9	AgEagle eBee X	Aerial imaging fixed wing drone and full stack flight planning software for more informed decision making and farm planning
Farm and Diesel Pty Ltd	867	XCMG Construction Equipment	XCMG machinery
McCullochs	617	Kioti Hx Series Tractor 130 & 140hp	New high-end tractor range with an opulent design and exceptional power. A spacious cabin with an emphasis on ergonomics and comfort delivers exceptional vision whilst promoting safe operation and accuracy
Tuatara ATV	1404	Tuatara ATV	The Tuatara ATV is a machine designed in New Zealand and is a truly versatile machine. offering a completely electric mode, Tuatara is introducing something new to the market. the large cargo space, large towing capacity, large load capacity, electronic selectable 4WD, front and rear differential locking , winch, LED lights and LED light bar are all standard on Tuatara ATV's

Advances in Technology and Innovation			
Site Name	Number	Product Name	Description
Adams Silo Safe and Welding	492	Silosieve	Silosieve is an innovation in silos helping with product flow & safety
AgriWebb	1007	AgriWebb Marketplace	AgriWebb connects your farm with the best in AgTech. Monitor water, measure grass, weigh stock and connect with leaders in livestock, all from your AgriWebb account.
Biolink Probiotics 4 Plants and Animals	269	Biolink Bio-Hum	A microbial based fertiliser supplement making conventional fertiliser more efficient by reducing lose, holding the soluble nutrient in a plant available form and developing waterholding holding capacity through our microbial blend introduced to the soil
DroneLand Australia	148	DJI T40 Agriculture Drone	DJI's Flagship Agriculture Drone for Spraying and Spreading
EEA Group	423	Safety Shield	AI camera for install on any heavy machinery or farm equipment - recognises any human form - a perimeter is set, when a human enters the perimeter, the machine is brought to a complete stop - on display at our stand at Elmore

EnduraPost	1008	EnduraPost Square Picket	EnduraPost Square Picket is a very tough HDPP plastic composite picket that will never rust or corrode. It can withstand grass fires up to 350C and is fully insulated. It is produced in Australia using discarded fertilizer bulka bags and is manufactured to withstand the Aussie conditions for at least 50 years. They are a fantastic solution to many of the frustrations caused by corrosion and rust which the steel pickets succumb to and won't rot away or easily burn like timber will. Go Aussie!
Eye Muffs by Reptiler	GI.71	Eye Muffs G6 Wireless	Ear and Ear protection All-in-one and Bluetooth...Designed assembled and packaged in Australia!!
Falcon UAV	AP.9	AgEagle eBee X	Aerial imaging fixed wing drone and full stack flight planning software for more informed decision making and farm planning
Green Brain	AP.104	Green Brain Soil Moisture Monitoring	Green Brain's soil moisture monitoring solution introduces a new era of precision irrigation for farming. Our advanced system incorporates cutting-edge soil moisture probes that provide real-time data on soil conditions. These probes are strategically placed within the farm, allowing for accurate and localized measurements. The data collected by these probes is remotely communicated to our centralized platform, ensuring that farm managers can access critical insights from anywhere.
Haymate	1055	Haymate SR5400	Haymate SR5400 is an innovative time saving easy to use piece of machinery designed to hold up to 4 round or 5 square bales of hay or silage. Can be towed behind heavy duty 4x4. Easy single person operation. Full remote control operation of both engine and machine all designed for ease of use from the comfort of your vehicle. Stand alone engine with fully integrated hydraulics. The modular design of the Haymate enables easy upgrade or multiple applications. Designed and Manufactured in Keith SA
Haynes Engineering	Shearing Shed	Shearing Module	
Kress Commercial	1198	Kress CyberSystem	World's fastest battery charger CyberSystem 0-100% in 8 min for Kress outdoor power equipment
McCullochs	617	Rapid Spray Rapidmix Sprayer	With separate tanks for water and chemicals, this innovative backpack sprayer allows for quick changeout of non-compatible chemicals in the field and eliminating the risk of chemical cross contamination.
Newburn Woodfired Ducted Heating	47	NEWBURN FURNACE	The NEWBURN Woodfired Central Furnace has the unique ability to distribute thermostatically controlled heat throughout your home or business, ensuring endless warmth and ambience. The smart Australian designed and built heating system can burn overnight without being stoked.
Position Partners	AP.95	Trinity Pro-Quantum Drone	Smart autonomous drone
Primary Sales Australia	429	Adapt-T Seeding System	Endless Point - Adjustable continuous point with minimum point wastage Adaptability - Easy to switch from inline to paired row or single to double shoot seeding options
SheerSpeed Shearing Products	1414	Woolmaster Wireless Control Shearing Handpiece and Counter	Remote on/off control of the handpiece which works in conjunction with a counter. The pull-cord no longer needs to be pulled to begin or end shearing a sheep which, with each sheep, gives a digital readout of the number of shorn sheep.
		Magnetic Grinding Papers	These papers replace the glue-on papers for use on steel grinding discs for the sharpening of shearer's combs and cutters. The papers take less than a minute to change to a new one, as opposed to a much longer time frame with the glue-on papers.
Tuatara ATV	1404	Tuatara ATV	The Tuatara ATV is a machine designed in New Zealand and is a truly versatile machine. offering a completely electric mode, Tuatara is introducing something new to the market. the large cargo space, large towing capacity, large load capacity, electronic selectable 4WD, front and rear differential locking , winch, LED lights and LED light bar are all standard on Tuatara ATV's
